Whitewater School District
Safe Return to School and Continuity of Services Plan
Date of Original Adoption:April 24, 2020
Date Plan was Last Revised:December 15, 2021, December 12, 2024
Next Regularly Scheduled Month for Consideration (At least quarterly): March 2024
Dates Reviewed:August 2020, March 2020, April 2020, July 2021, Decembe
2021, March 2022, June 2022, September 2022, December 2022, March 2023, June
2023, Sept. 2023, December 2023

March 2020 - June 2021

- The Whitewater School District was ordered to close to in person instruction on March 15, 2020, under an executive order issued by then-Governor Bullock. Districts were provided a two week period of time during which they could remain fully closed to instruction of any kind while developing a plan for remote instruction required by the Governor.
 - 1. Although our district was authorized to remain closed, we quickly mobilized and began remote instruction during the timeframe when we were authorized to remain closed. Thereafter, our district continued pursuant to a reopening plan approved by the Governor beginning March 30, 2020.
- 2. On April 22, 2020, then-Governor Bullock lifted his Stay at Home Order, and Announced a Plan to Begin Phased Reopening of Montana. As part of that plan, effective May 7, 2020, all schools were provided the option to return to in-classroom teaching at the discretion of local school boards.
 - 1. Our school district finished the 2020-21 school year through remote instruction. During the 2020-21 school year, our means of operation have included:
 - 1. In person
 - 2. Offsite
- 3. Our district developed a plan for reopening to in person instruction, with contingencies, and we implemented that plan for the 2020-21 school year. The reopening plan, details regarding which are provided below, included adoption of various model policies provided by the Montana School Boards Association under its 1900 Series, including model policies aligned with CDC guidance regarding mitigation strategies to limit exposure to and transmission of COVID-19 in school settings.
- 4. Our district is finishing the 2020-21 school year strong, having provided high quality learning opportunities to the students in our community in safe and effective learning environments.

5. We embraced a fundamental principle of providing extensive transparency to our community throughout the above timeframe. We publicly noticed, held meetings regarding, and provided extensive opportunities for our community to provide us with feedback regarding the School District's plans and we carefully considered such feedback in developing and refining the School District's plans throughout the last 14-15 months.

Safe Return to Schools and Continuity of Services Plan Contents: March 2020-June 2021

Part I: Documentation of Meaningful Consultation in Developing and Refining the School District's plan from March 2020 Through June 2021:

We noticed, held, and invited public comment on our evolving plans for a safe return to school and continuity of services on the following dates since March 2020:

- 1. March 17, 2020
- 2. April 14, 2020
- 3. April 29, 2020
- 4. May 12, 2020
- 5. June 9, 2020
- 6. July 14, 2020
- 7. August 11, 2020
- 8. September 8, 2020
- 9. December 8, 2020
- 10. July 13, 2021
- 11. December 14, 2021

- 12. March 8, 2022
- 13. June 14, 2022
- 14. September 13, 2022
- 15. December 13, 2022
- 16. March 14, 2023
- 17. June 13. 2023
- 18. September 12, 2023
- 19. December 12, 2023

Our invitation for public input included a general opportunity for the public to provide input and was provided to everyone interested, including:

- 1. Students; families; school and district administrators (including special education administrators); teachers, principals, school leaders, other educators, school staff, and their unions; and
- Tribes; civil rights organizations (including disability rights organizations); stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students.

Part II: Contents of The School District's plan for Safe Return to In-Person Instruction and Continuity of Services:

1. A description of how the district will maintain the health and safety of students, educators, and other staff:

Following the lifting of the Stay-at-Home Order and subsequent reopening of the state on April 22, 2020, _Whitewater_ School District utilized the Montana Public Education Center Roadmap for Safely Reopening Montana's Public Schools Using Emergency School District Policies and accompanying MTSBA Model Emergency Policies. Utilizing these resources supported our district's continued service to students with transparency and accountability while ensuring the operations of the school district reflected the circumstances in our community.

The policies ensured our Board of Trustees and school leaders honored the following priorities: quality instruction to students; a healthy and safe setting for students, staff, and the community; needed support of teachers and staff; and responsible financial and operational procedures. The policies provided an actionable plan for completing the 2020-2021 school fiscal year in a manner that met these priorities and secured district funding while providing an operational platform for considering long term innovations in the delivery of education services.

Whitewater School District implemented policy options that facilitated collaboration between the Board of Trustees, administrative team, employees, parents, students, health officials, and community as we established protocols aligned with CDC guidance addressing how instruction was to be delivered to students; how gatherings and events would take place on school property; how the health and safety of staff and students would be protected and preserved while schools were open; and how financial and operational functions of the school district would continue during the period of public health emergency.

Whitewater School District reviewed, considered, and addressed numerous areas of operation in our reopening process. On the topic of school district policy and procedures, the district considered emergency policies and procedures, adoption and amendment of policies, suspension of policies, and administrative procedures. To support students' academic, mental, social and emotional success, the district considered alternative grading, counseling, extended school year, student instruction proficiency determinations and declarations, support for particularly vulnerable students, transportation services, access to internet for students, food preparation and service, summer school and additional student instruction resources. To ensure the health and safety of students, teachers, and staff, the district considered cleaning and disinfection, community use of facilities, county board of health orders, diagnosis and confidentiality, hand washing and related hygiene protocols, telework, school closure orders, stay at home orders, symptom monitoring and isolation, travel quarantines, visitors, volunteers, vulnerable individuals, masks and personal protective equipment, and physical distancing.

Following the Roadmap for Safely Reopening Montana's Public Schools Using Emergency School District Policies ensured _Whitewater_ School District has remained in compliance with guidance and best practices provided by federal, state, or local health officials. Our school district has continued to adapt and adjust our policies as new and updated guidance and best practices have become available. Further, the policies provide options for consideration through input from our board of trustees, administrative team, employees, parents, students health officials, and community as collaborative partners as we have worked our way through ever evolving

changes due to the pandemic. By considering all possible perspectives and factors when making the decisions to adopt or adjust a policy, or to implement a policy, we focused on the health and safety of our students, staff, and community for delivery of learning and services to our students. The policies have enabled us to adjust our procedures and practices during different phases in compliance with guidance and best practices provided by federal, state, and local agencies.

Whitewater School District will continue to follow the policies noted below while engaging in a quarterly reevaluation process to continue to ensure the health, safety and wellbeing of our students, teachers, staff, and community through 2024.

2. The extent to which the district has adopted policies, and a description of any such policies, on each of the following safety recommendations established by the CDC:

Topic	School District Policy	Description of Policy (All referenced polices can be found at the end of this document.)	Policy Adopted and Revised Date(s)
	Reference	,	
Universal and correct wearing of masks.	1905	1905: The School District has adopted the protocols outlined in this policy during the term of the declared public health emergency to ensure the safe and healthy delivery of education services provided to students on school property in accordance with Policy 1906, and a safe workplace when staff are present on school property in accordance with Policy 1909, and the safety, health and well-being of parents and community members. The supervising teacher, principal, superintendent or designated personnel are authorized to implement the protocols in coordination with state and local health officials. The policy establishes regulations making optional face coverings as personal protective equipment.	 April 29, 2020 March 9, 2021 January 3, 2023 June 13, 2023 December 12, 2023

closures, the ongoing provision of educational services to students. meetings of the Board, gatherings on school property, health and safety of students, staff and community members, human resource matters and budgetary matters. To ensure clarity and transparency, the board has organized all emergency school policies into a temporary chapter. School District Policies Numbered 1900-1999 are intended to govern during any emergency related to COVID-19 declared by the President, Congress, Montana Legislature, Governor, Montana Department of Public Health and Human Services, County Health Department or the Board of Trustees.

1905: The School District has adopted the protocols outlined in this policy during the term of the declared public health emergency to ensure the safe and healthy delivery of education services provided to students on school property in accordance with Policy 1906, and a safe workplace when staff are present on school property in accordance with Policy 1909, and the safety, health and well-being of parents and community members. The supervising teacher, principal, superintendent or designated personnel are authorized to implement the protocols in coordination with state and local health officials.

1907: The Board of Trustees is authorized to declare that a state of emergency exists within the community. A declaration issued by the Board of Trustees is distinct from any declaration in effect or previously issued by local, state or federal authorities.

3417: The District will manage common communicable diseases in accordance with Montana Department of Public Health and Human Services guidelines and communicable diseases control rules. When information is received by a staff member or a volunteer that a student is afflicted with a serious communicable disease, the staff

area as determined by the Board of Trustees using district assessments consistent with the School District's adopted Plan of Action, District Policy 1005FE, or other measures approved by the Board of Trustees during the course of a school year affected by a public health emergency.

Students shall receive services in accordance with the applicable Individualized Education Plan or Section 504 Plan based on methods and locations agreed upon and documented by the applicable team to meet the student's needs and goals. Students shall have access to regular school counseling services whether their instruction is provided in an onsite, offsite or online setting. Staff shall promptly report any suspected student distress or concern to their supervisor for review and referral. Students receiving instruction in an offsite setting are governed by the staff obligation to report suspected child abuse or neglect. This policy in no way limits or adjusts the School District's obligations to homeless students or students in foster care. Applicable District policies serving these students, or this population of students remain in full effect. 1906P: Proficiency or satisfying aggregate hours of instruction can be achieved through an on-site, off-site, or blended learning model as outlined in Policy 1906. Best practices will assist districts in facilitating quality learning for each student regardless of background or circumstance. Best practices include but are not limited to, planning and communication, clear expectations, differentiated instruction and learning models, and flexible demonstrations of learning. 2050: The School District has adopted the protocols outlined in this policy to ensure the delivery of education services to students onsite at the school, offsite at other locations using available resources. The District administration or designated personnel are authorized to implement this policy

June 2021

Part III – Updated Compliance for the District's Previously Adopted Plan for the Safe Return to In-person Instruction and Continuity of Services:

Section 2001(i)(3) of the ARP Act states that a school district that developed a plan for the safe return to in-person instruction and continuity of services prior to the date of enactment of the ARP Act will be deemed to have met the requirement to develop a plan under section 2001(i)(1) as long as the plan meets the statutory requirements (i.e., is publicly available on the LEA's website and was developed after the LEA sought and took into account public comment). The School District's plan meets the requirements of Section 2001(i)(1) and (i)(2) of the ARP Act. The School District's plan is available on our website and, as noted above, was developed through a process that included extensive public comment. Further, we have, as part of the organization of the School District's plan for purposes of the ARP Act, revised the School District's plan at a meeting December 12, 2023 that included not just a notice of opportunity for public input but which specifically invited meaningful consultation with and input from:

- Students; families; school and district administrators (including special education administrators); teachers, principals, school leaders, other educators, school staff, and their unions; and
- 2. Tribes; civil rights organizations (including disability rights organizations); stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students.

We have considered the input of all affected parties and have carefully deliberated regarding the best possible means by which our district can provide safe effective learning environments for each of our students.

June 2021 - September 30, 2024

Part IV – Schedule for Future Review and Updates:

Consideration of this Safe Return to Schools and Continuity of Services Plan shall be added as a standing agenda item on each regular and special meeting of the board of trustees throughout the 2021-24 school years. The agenda item shall, at a minimum, include notice of any changes to the plan recommended by the administration with an invitation for input, notice of opportunity for public input, and consultation with:

- 1. Students; families; school and district administrators (including special education administrators); teachers, principals, school leaders, other educators, school staff, and their unions; and
- 2. Tribes; civil rights organizations (including disability rights organizations); stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students.
